

Installing INTERsoft-INTELLICAD

Please download below, if you have not installed it:

- INTERsoft-INTELLICAD 2023
- ArCADiasoft-LICENSE MANAGER

After you have downloaded **INTERsoft-INTELLICAD 2023**, right-click and run as administrator to start installing.

Activating your License...

You'll need to be online to activate the license.

- 1. Create a new folder in the computer **Documents** folder and name it **INTERsoft**.
- 2. Place the license file **.ISL** into this folder. It should be included in the email.
- 3. Install the **ArCADiasoft-LICENSE MANAGER** then **Run** it from your computer Desktop.
- 4. When the license manager opens, click **Select file(s)...** and select the **.ISL** file.
- 5. Once selected, your company name under the Owner column would appear.
- 6. Click **Install selected license** to activate the license.
- 7. Repeat the above for the other computer belonging to the same user.

Once the above steps are done, double-click the **INTERsoft-INTELLICAD 2023** on the computer Desktop to run it.

Note: Only one computer is allowed to run the software at any one time.
